

TruComply

TEAM BRO>>CODE

Face challenges
due to different
state level
regulations

Need to pay
attention to
precise adherence
to the regulations

Stakeholders in India

Face
complexities
while meeting
the FSSAI
regulations

Do not have a
normalized
representation for the
compliances across
various sectors

HENCE

We unify state and central
regulations, simplify FSSAI
adherence, ensure precise
compliance

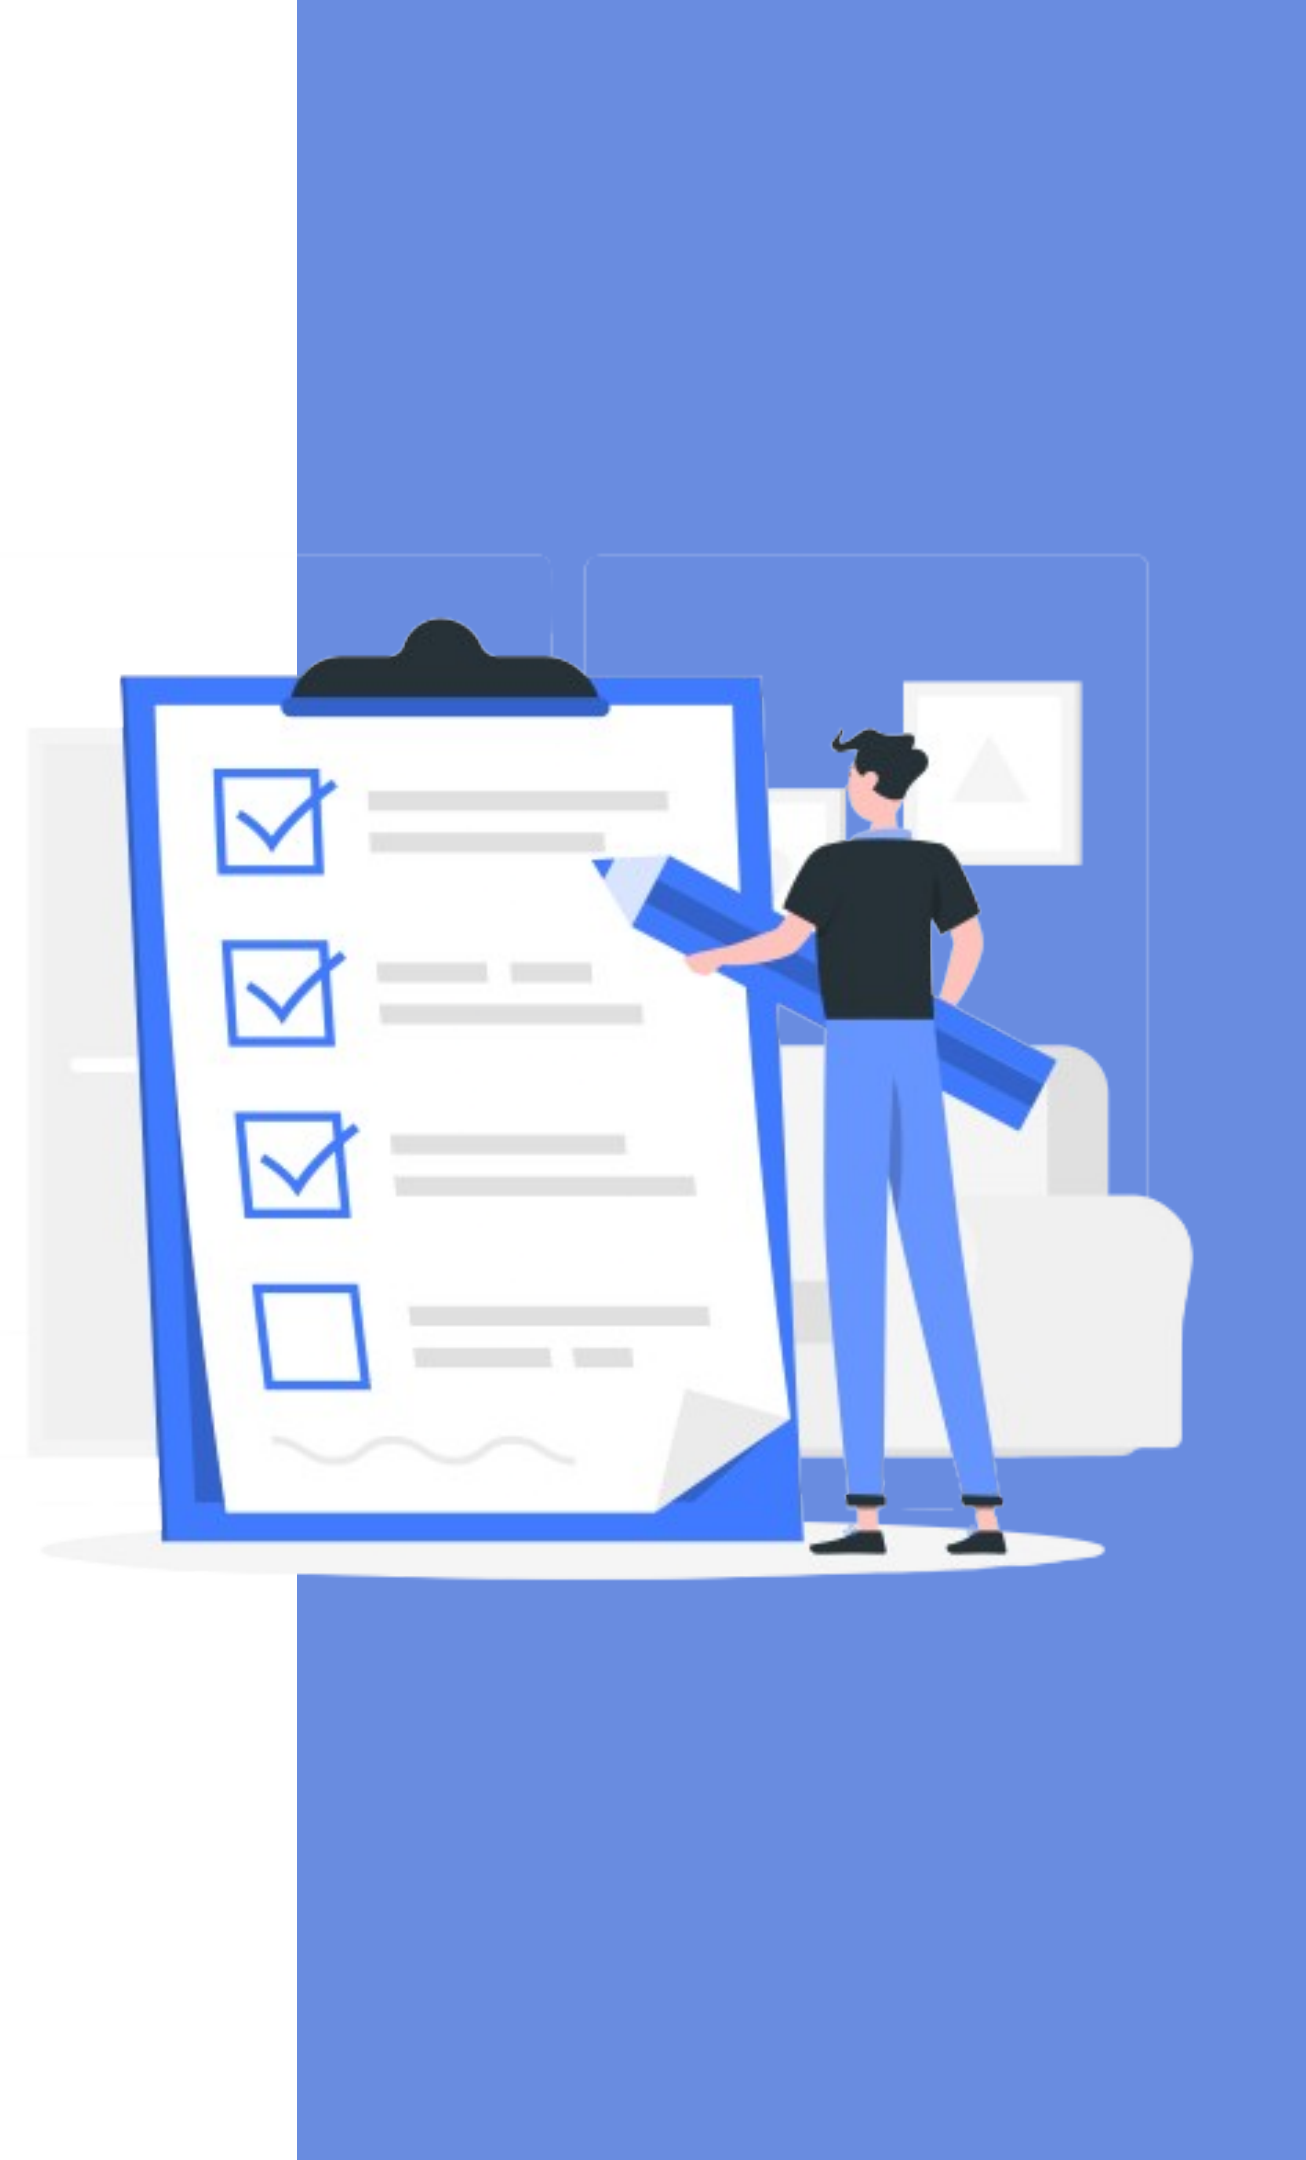

Introducing TruComply, your partner in solving the intricacies of legal compliance within the dynamic e-commerce landscape. We make sure strict adherence to regulations for ensuring the safety and reliability of your products and services.

We bring a revolutionary approach to compliance challenges, integrating AI and ML into our platform. Our user-friendly hub acts as a compass, guiding e-commerce merchants through the labyrinth of regulations with ease.

TruComply employs AI-guided assistance, transforming your compliance journey into a hassle-free experience. Moreover we employ multiple more features for improving your compliance journey.

Welcome to a new era of compliance management – where TruComply is not just a platform but a trusted ally on your business journey.

END TO END WEB AND APP PLATFORM FOR USERS

Prompt-Based Guidance System: Our platform employs the state-of-the-art llama2 model, utilizing Natural Language Processing (NLP) techniques to provide users with intelligent and context-aware and customized guidance by automatically reading their documents throughout their compliance journey. Say goodbye to confusion and welcome a personalized, prompt-based assistance system.

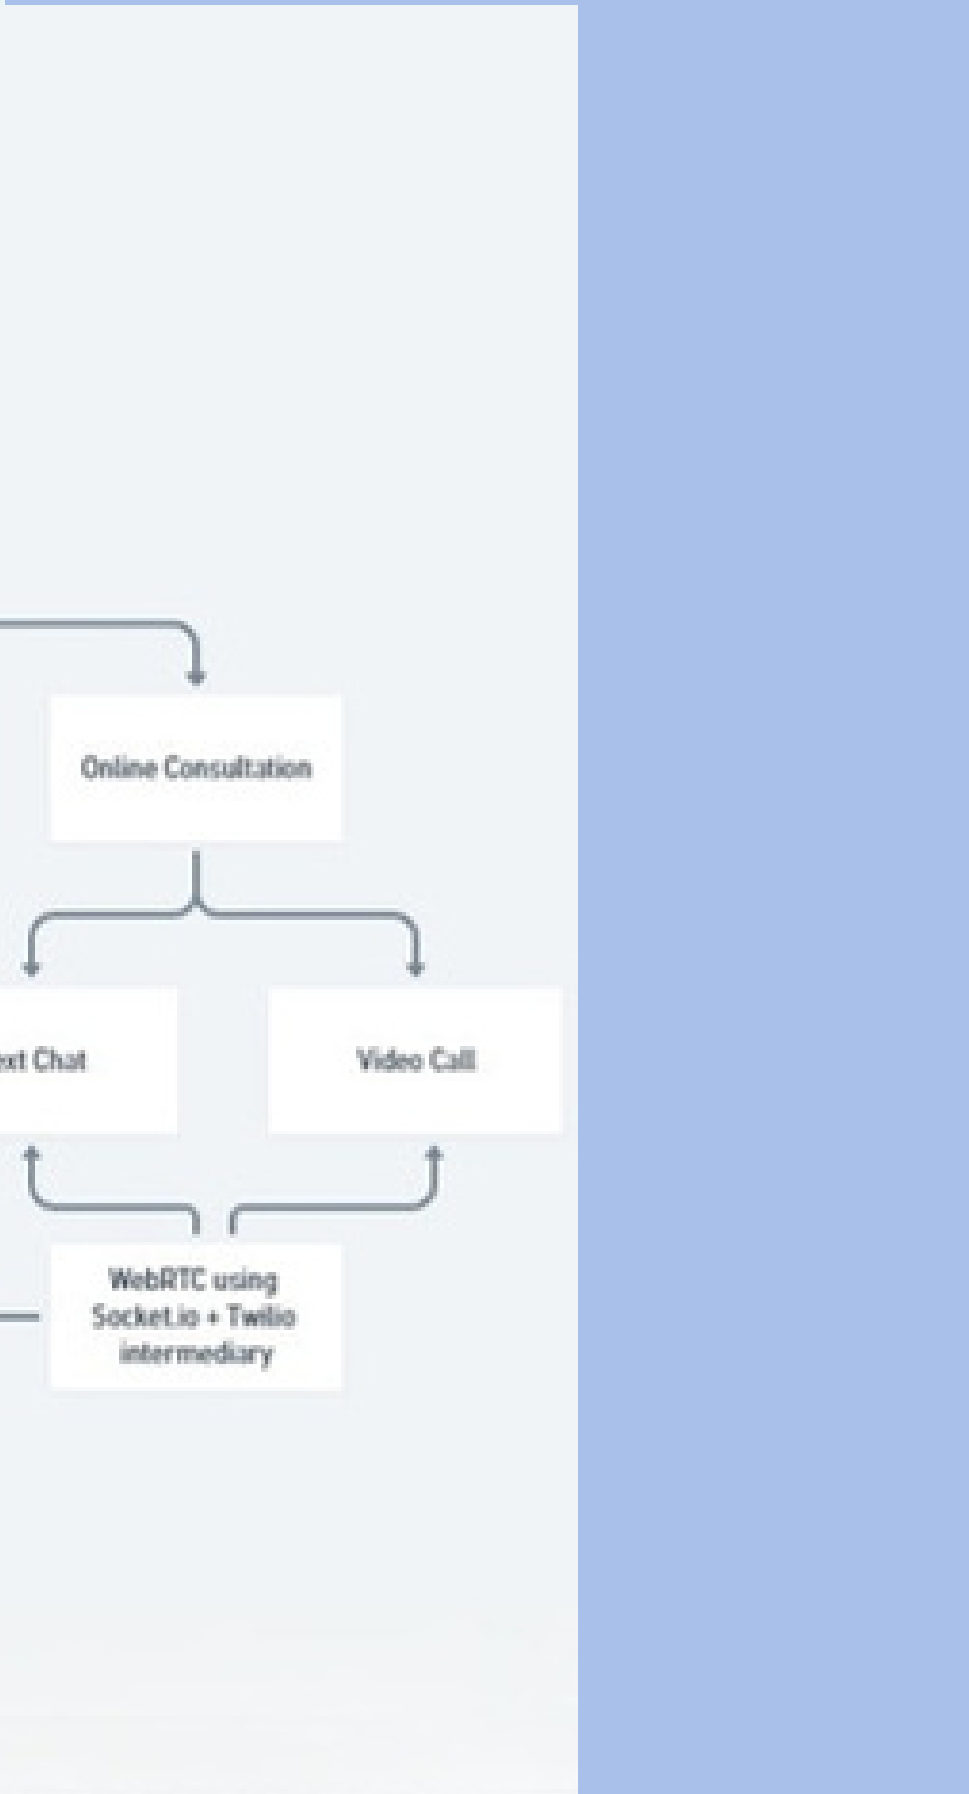

Automatic Checklist Generator: TruComply introduces an Automatic Checklist Generator powered by advanced algorithms. Seamlessly integrated with our llama2 model, it adapts to the exact compliance needs of users using their documents, offering tailored checklists for a variety of regulatory requirements. Enhance efficiency and accuracy in compliance completion effortlessly.

Foolproof Alert System: Leveraging real-time communication technologies such as Socket.io, TruComply ensures a foolproof Alert System for compliance tracking. Stay on top of your obligations with instant notifications and updates, keeping you informed of any changes in regulations that might impact your business.

Compliance Consultants Marketplace: TruComply goes beyond the ordinary by offering a unique Compliance Consultants Marketplace. Need expert advice? Explore a pool of compliance consultants directly on our website. Facilitate seamless connections between users and consultants for personalized assistance in navigating intricate compliance scenarios.

TruComply distinguishes itself as an end-to-end, multilingual web and app platform, offering an extensive array of features beyond those mentioned above. This comprehensive suite enhances user support, making TruComply an indispensable tool for navigating legal compliance in the e-commerce realm.

OUR TRIPLE 'A' BUSINESS MODEL

AUTHENTICATE

We ensure the authenticity and trustworthiness of individuals, products, or information.

ADHERE

We strictly comply and demonstrate commitment to legality, and ethical practices

ACCOMPLISH

We successfully achieve compliance goals, tasks, or regulatory objectives

What makes us different?

- **Customized Solutions for Every Business Size:** Whether you're a startup or an enterprise, TruComply offers scalable and tailored compliance solutions to meet your unique needs, ensuring compliance without compromise.
- **Continuous Regulatory Monitoring and Updates:** Stay ahead of regulatory changes with real-time monitoring and instant updates, empowering businesses to adapt swiftly and maintain compliance excellence.
- **Advanced AI-driven Compliance Checklists:** Utilize cutting-edge Language Model capabilities for generating company-specific compliance checklists, ensuring comprehensive adherence to regulations.
- **Effortless Sector-Specific Compliance Access:** Simplify compliance research with our intelligent keyword prompting, offering easy access to regulations across preferred sectors.

FUTURE SCOPE

Secure and Immutable Documentation: Implementing Blockchain ensures that compliance documents are securely stored and tamper-proof, providing an immutable record of regulatory adherence.

Transparent Audit Trails: With Blockchain's transparent ledger system, stakeholders can access comprehensive audit trails, tracking the entire lifecycle of compliance documents. This transparency fosters trust and accountability among all parties involved.

Smart Contract Automation: Introduce smart contracts to automate compliance-related agreements and processes, such as document verification, approvals, and renewals. This automation reduces manual intervention, streamlining workflows and minimizing errors.

THANK YOU!
